PROFESSIONAL SUMMARY

Aviation operations and performance leader with 20+ years of experience across international airlines, aviation services, station management, flight operations, OCC support, ground handling and airport environments. Combines operational leadership with applied capability in Power BI, SQL, Python, forecasting, machine learning and Generative AI. Delivered ₹1.5 Cr in vendor recovery, avoided ₹40–50 lakh in financial exposure, led teams of 20+ and improved workforce efficiency, productivity, service reliability and management decision-making.

SELECTED EXECUTIVE IMPACT

₹1.5 Cr vendor recovery | ₹40–50 lakh risk avoidance
32% staffing-efficiency gain | 23% productivity improvement | 45% complaint reduction
₹2 Cr budget scope | 20+ team leadership | 45-minute aircraft turnaround

PROFESSIONAL EXPERIENCE & APPLIED PROJECTS

Independent Aviation Operations & Analytics Projects

Applied Aviation Analytics & Professional Development | Remote

Sep 2022–Nov 2023; Jul 2024–Present

- **Developed** aviation-focused decision-support solutions covering flight-delay prediction, workforce planning, forecasting, operational safety and Generative AI.
- **Built FlightPulse**, a Python-based flight-delay classification model using machine learning and SHAP explainability, achieving approximately 82% test-set classification accuracy during portfolio model testing.
- **Created CrewOps**, a roster and workforce scenario-planning solution for evaluating staffing demand, shift coverage and capacity constraints.
- **Deployed** a local GenAI Operations Intelligence Assistant using Ollama, Open WebUI and Docker to analyse aviation-safety data and generate structured management summaries.
- **Benchmarked** forecasting models against baseline methods, demonstrating approximately 20–25% improvement in forecast accuracy, and automated portfolio reporting workflows to reduce estimated manual effort by 40–50% using Python, SQL, Power BI, Excel and Streamlit.

Station Operations Manager | [Uganda Airlines](#), Mumbai

Nov 2023–Jun 2024

- **Improved** staffing efficiency by 32%, reduced overtime by 11% and lowered passenger complaints by 45% through roster redesign, service controls and escalation management.
- **Directed** end-to-end station operations covering 20+ staff, 45-minute turnaround targets, an approximately ₹2 Cr annual budget and station revenue responsibilities.
- **Delivered** approximately ₹3.5 lakh in savings within three months by strengthening vendor controls, reconciliation, audit processes and cost discipline.
- **Protected** an on-time departure by resolving a critical fuel-payment blockage through rapid coordination across airline, airport and commercial stakeholders.

Flight Operations Supervisor | [All Nippon Airways](#), Chennai / Mumbai

Jul 2019–Aug 2022

- **Reduced** resource idle time by 30%, improved manpower productivity by 23% and strengthened SLA reliability by 6–8% through tighter allocation and turnaround control.
- **Shortened** reporting and escalation cycle time by 25% through redesigned KPI reviews, dashboards and structured root-cause analysis.
- **Directed** flight operations and turnaround coordination across airline, airport, ground handling, crew, engineering and regulatory stakeholders.
- **Coordinated** a Chennai–Tokyo COVID-period repatriation operation involving government authorities, airport teams and cross-functional airline partners.

Flight Operations Officer | [Garuda Indonesia Airways](#), Mumbai

Dec 2016–Jun 2019

- **Recovered** approximately ₹1.5 Cr in vendor overbilling through invoice audits, reconciliation and strengthened commercial controls.
- **Avoided** ₹40–50 lakh in potential penalty exposure by identifying control gaps and improving compliance governance.
- **Negotiated** a proposed 10% vendor increase down to 4% while preserving service continuity and operational standards.
- **Integrated** operational and vendor-performance data to accelerate issue identification, management reviews and corrective action.

OCC Duty Officer | [BWFS Ground Handling](#), Mumbai

May 2016–Dec 2016

- **Managed** real-time allocation of bays, check-in counters and baggage carousels across high-volume airport operations.
- **Supported** OCC disruption management, turnaround recovery and coordination among airline, ramp, baggage and terminal teams.

EARLIER CAREER

- Admin & Travel Executive | Alepo Technologies** **2011–2015**
 • **Managed** corporate travel operations, vendor coordination, administration and management reporting.
- Assistant Flight Operations Officer | Saudi Arabian Airlines** **2008–2011**
 • **Supported** flight dispatch, operational documentation, crew coordination, flight monitoring and pre-departure readiness.
- Data Service Agent | Cathay Pacific / CNS** **2004–2008**
 • **Processed** airline operational data and MIS reports supporting service delivery and management information requirements.

CORE LEADERSHIP & AVIATION CAPABILITIES

OCC Operations | Station Operations | Flight Operations | Airport Operations | Aircraft Turnaround Management | On-Time Performance | Irregular Operations | Disruption Management | Flight Dispatch Support | Workforce & Capacity Planning | Vendor & SLA Governance | KPI Governance | Budget & Cost Control | Audit & Compliance | Root-Cause Analysis | Cross-Functional Leadership

TECHNICAL CAPABILITIES

Core Analytics: Power BI | SQL | Python | Advanced Excel | KPI Dashboards | Data Visualisation | Reporting Automation | Data Analysis

Forecasting & Decision Support: Demand Forecasting | Capacity Planning | Scenario Modelling | Workforce Analytics | Machine Learning | Classification Models | SHAP Explainability

GenAI & Deployment: Generative AI | Prompt Engineering | Ollama | Open WebUI | Docker | Streamlit | Git | Local LLM Deployment

Aviation Systems: Jeppesen | Amadeus Altea | Navtech | AIMS / JOC Exposure | Flight Dispatch and Airline Operations Systems

CERTIFICATIONS & EDUCATION

Certifications: FAA Aircraft Dispatcher Certificate (USA) | Data Science with Python | Power BI & Tableau | Advanced Excel | Business Analysis | Generative AI & AI Tools Coursework

Education: BSc, Computer Science, North East Frontier Technical University (2019) | MBA, Marketing, National Institute of Management (2005)
